Olivia Immitt is a multidisciplinary artist whose acrylic painting and drawings on paper and canvas explore symbolism behind encounters with animals, elements, and nature. Her style, best described as simplistic realism, captures the essence of her subjects with clarity and emotion.

Two years ago, Olivia transitioned to teaching art and meditation classes independently. Painting remains her way of centering herself, a meditative practice that parallels her work in helping others find peace and presence. Through her art and teaching, she fulfills her lifelong dream of sharing creativity with others.
